

February 2019 Update

Lakes Convention!

Attended by hundreds of professionals, lake organizations, and volunteers from WI and beyond, the Lakes Convention is the best way to network, gain useful information on research, and become inspired to get some work done. Consider sending a rep from your lake organization! Event is April 10-12, 2019 in Stevens Point.

L&W Conservation Committee

Keep yourself in the loop with local government - the Land & Water Conservation Committee oversees the Land & Water Department in Vilas County. This is an open meeting and the public is welcome to attend.

AIS Monitoring Workshops

Could your lake benefit from some extra eyes? If you would like to start a group or get a refresher for your group on Aquatic Invasive Species Monitoring in 2019, please contact [Cathy Higley](#) to set up workshop. This program is a part of the Citizen Lake Motoring Network.

Clean Boats Clean Waters

Stay tuned - a 2019 Clean Boats Clean Waters Inspector training schedule will be out within the next month. Inspectors should attend a training once every 2 years.

If you applied for a CBCW DNR grant Dec 10, 2018 - watch for grant agreements and advance payments coming your way.

Questions? Contact [Cathy Higley](#).

Spiny Waterfleas Ain't Easy to Find

Spiny waterfleas were found in Lake Mendota in 2009, but a closer look made scientists realize that they had already been there for up to a decade. Why are spiny waterfleas these do hard to detect? Read more at the link below...
